

## **First Street Paving Project Has Begun**

Wednesday, 21 September 2016 10:37

---

The City of Sully has approved an agreement with Jasper County for asphalt paving on Highway F62/First Street inside Sully corporate limits with the project being awarded to Manatt's Inc. The first phase of construction has begun this week. The second phase will be the asphalt overlay. Residents are asked to avoid using First Street if possible during the construction period. The construction project will involve use of a pilot car and may cause some inconvenience with access to First Street; however, the goal is to complete this project as smoothly and quickly as possible. Should you have questions or concerns regarding this project, please contact a council member.
